

Jaroslav Mosnacek, PhD. DSc.

Polymer Institute of the Slovak Academy of Sciences

Principal research investigator (equivalent of Research professor)

E-mail: jaroslav.mosnacek@savba.sk

Jaroslav Mosnacek was graduated in 1998 in Organic chemistry at Comenius University in Bratislava and obtained his PhD. in 05/2002 and DSc. in 09/2016 in Macromolecular chemistry at Polymer Institute SAS. After defence of his PhD. thesis, he spent totally almost 4 years as a postdoc in Italy (prof. Ciardelli), Poland (prof. Penczek), Saudi Arabia (prof. Basfar) and USA (prof. Matyjaszewski). Since 06/2015 he is a head of Department of Synthesis and Characterization of Polymers and since 01/2019 a director of the Polymer Institute. His research interest is focused on the synthesis of well-defined vinyl polymers and surface modifications using living/controlled (photo)polymerizations as well as synthesis of functional polymers from renewable monomers. During last ten years he was a principal investigator of 5 national research projects and 2 international projects. He is (co)author of 115 SCI publications cited more than 2000 times with *h*-index of 28, 3 book chapters, 1 university textbook and 3 patents.
